# NUCLEO CHURCH

*Knowing, Experiencing and Preaching the Gospel*

2022

## Goals achieved this year

2022

This year we were able to officially have our core group, all leaving from our mother Church San Pedro. We were being equipped and trained in the three main loves: loving God, loving the Church, and loving the World. In order to be clear about what we think, who we are, and where are we going.

Also, we were able to have our official launching in September as a Church. It was a great time with friends, family, and some members of the mother Church, there were about 100 people in total. But what made us most happy was seeing more than 30 non-Christian people being with us on this very special day, where the gospel and the importance of community were exposed.

Finally, we have been able to achieve 6 discipleship groups, with approximately 5 members in each one. But we also found ourselves in the challenge of what to do with the new people, so right now we already have 3 groups of 7 people each, studying the main elements to understand the centrality of the gospel.

### IMPORTANT POINTS

#### 1 - EQUIPMENT

#### 2 - LAUNCHING

#### 3 - COMMUNITY

## Gospel Story

Eduardo Arrollo

"I was going through a very difficult time in my life, I was going through a divorce for the second time, and I asked God not to leave me alone. It was precisely in that month that I met one of you, and the first thing you offered me was a sincere friendship. I will never forget that from the first Sundays that I began to attend with you all, you received me with so much love, and in all the sermons on the Gospel of John, I have seen myself identified, they have touched my heart. I had never seen my need for eternal life as I do now. Now when I go to the radio I always proudly wear my Núcleo shirt, whom I can call my family".

"I had never seen my need for eternal life as I do now."

- Eduardo Arrollo

## Main event

### Opening

Definitely our main event was our opening, not only because that event was very well organized or because it was saturated with many things. But because it was a celebration of what we had already been doing: worshipping together as a team, preaching the gospel to our non-Christian friends, and celebrating the Lord's grace among us.

Number of people congregate in our Church: 45-55

GREETINGS

I wish that the grace of God will always be palpable in you as it has been through you. May the reminder of God's greatest gift be present this season and always in your hearts, family, friends, and congregations. It is thanks to this great gift that is real in your lives that you are able to reflect it through your generosity and love. My wife Ale and I Luis are infinitely grateful for that. We love you and pray for you! Merry Christmas!

iGO!

Merry Christmas  
and a Happy New Year!
